

Maintenance, Repairs and Inspections

Crane Com provides a customised on-site solution for the **Maintenance, Repairs and Inspections** of all makes and sizes of mobile cranes throughout Africa.

We cater for companies with a single piece of equipment, to the maintenance of an entire fleet, ensuring your assets are maintained and kept running optimally.

The services we offer:

MECHANICS

Our qualified on-site technicians are available twenty-four hours a day, seven days a week.

Fully-equipped and stocked with spare parts, and a 12 month detailed maintenance schedule for each crane.

Each team of mechanics are selected for each site based on your fleet and requirements.

MAINTENANCE

Maintenance schedules are planned in advance to ensure minimal down time and inconvenience.

Our turn-key service provides you with peace of mind that your fleet is maintained and serviced to ensure maximum UP-TIME of your mobile crane fleet.

PARTS

No matter what your crane make or type, Crane Com will save you time and money by ordering, managing and replacing your mobile crane parts.

Whether it's a Stock part, or an emergency breakdown, we will manage the ordering, logistics and repair in the shortest possible time.

INSPECTIONS

Our mobile crane inspections will help keep your crane compliant. We identify issues that may affect your safety and productivity which include:

- Load tests
- Calibration certificate (6 monthly)
- Geometrical measurements (hook block, throat opening, wire rope inspection)
- Condition inspections (as per SANS 19 & DMR 18.1)
- Lifting tackle inspections
